

BAGARIA BAL VIDYA NIKITAN**LAXMANGARH-SIKAR****SYLLABUS & LESSON PLANNER-2023-24**

Class:-	6
Subject:-	maths
Teacher Name:-	virendra kumar soni

SYLLABUS

Ch.No	NAME OF BOOKS	Name of Chapter	working day	Period	Topic	Month	Week
1	ncert	knowing our numbers	10	14	comparing numbers	April	1
					shifting digits		2
					large numbers in practice		3
2		whole numbers	12	15	predecessor	April	1
					successor		2
					number line		
3		playing with numbers	11	13	factors and multiples	may	1
					prime and composite numbers		2
					least common multiple		
					highest common factor		
4		basic geometrical ideas	13	16	intersecting lines	June	1
					parallel lines		2
					angles		

5		understanding elementary shapes	12	16	measuring line segments	July	1
					measuring angles		2
					triangle		
					quadrilaterals		
6		integers	13	18	ordering of integers	July	1
					integers on number line		2
					adding of integers		
7		fractions	13	16	comparing fractions	August	1
					fractions on number line		2
					addition and subtraction of fractions		
8		decimals	13	17	comparing decimals	August	1
					length conversion		2
					addition and subtraction of decimals		
9		data handling	24	31	organisation of data	Sept	1
					pictograph		2
							3
							4

10		mensuration	9	15	perimeter of regular and irregular shapes	Oct	1
					area of irregular shapes		2
11		algebra	22	28	matchstick patterns	Nov	1
					idea of variables		2
							3
12		ratio and proportion	24	31	ratio	Dec	1
					unitary method		2
							3
							4
